

## The Team representing Club of Rome's Think Tank 30

The think tank 30 is an interdisciplinary, independent, non-partisan network of young thought leaders organized under the Club of Rome. The think tank provides forward-looking solutions to important societal debates and formulates recommendations for long-term oriented policies. Our members work and research in all societal areas and are united by the common goal to excite others for a more responsible global society.

### **Silke Noa Elrifai**

Noa is a lawyer turned legal engineer practicing at an international law firm. She regularly acts as counsel in arbitration proceedings and advises clients in the fields of finance & regulation, including in distributed ledger technology. Noa read Law at City University London (LL.B.) and Stanford University (J.S.M.), and Math & Econ at the LSE (B.Sc.). She is a Fellow of the Chartered Institute of Arbitrators and admitted as a lawyer in England & Wales, Berlin and New York.

### **Maya Hennerkes**

Maya is a sustainable finance expert with over 14 years of experience. As Lead Environment and Social Officer at IDB Invest, the private sector arm of the Inter-American Development Bank, she promotes the integration of climate issues in investment decisions. Maya studied Economics and Latin America Studies in Cologne, Germany and holds an Executive MPA from the Hertie School of Governance in Berlin.

### **Simon Sinsel**

Simon has almost 10 years of experience in clean technology from academia and business perspectives. Responsible for large project sales at Siemens, he has gained on the ground experience on drivers and barriers for clean technology investment. At ETH Zurich he investigates the impacts of clean technology diffusion on public policy and power sector incumbents.

### **Hans Rusinek**

Hans is a consultant at STURMundDRANG, a boutique consultancy, where he advises his clients on human-centric innovations and business model innovation. He is also the editor of Transform, a magazine for social innovation, and author for Deutschlandfunk on business & innovation. Hans studied Economics, Philosophy, and International Relations at the London School of Economics and is a trained Design Thinker from Hasso Plattner Institute's d.school.
